Introduction

Unlock the full potential of your wellness practice with our dynamic suite of marketing and sales support services. We deliver nutraceuticals, informed consulting, and private label development, empowering providers to stand out in a competitive market. Collaboration is at the heart of what we do. Newtropin connects wellness providers, fosters partnerships, and creates opportunities for your business to evolve and grow.

Newtropin is a marketing company registered with the Florida Department of State in the state of Florida. Newtropin does not offer pharmacy services, compounding, dispensing, or prescription drug sales, and is not a licensed pharmacy or pharmaceutical provider in any state. Full regulatory compliance statement on p. 10.

01 Private Labeling

Private Labeling Services

Newtropin offers premium private labeling referral services for our in-house nutraceuticals focused on anti-aging, overall health, and weight loss. Many physicians incorporate Newtropin products into patient protocols—and we value that trust.

Our services include:

- **In-House Product Private Labeling** Healthcare professionals can rebrand established Newtropin formulations under their own label. From design to fulfillment, our team ensures a smooth process for custom-branded nutraceuticals.
- **Custom Formulations** For practices seeking unique blends, we provide concept-to-market consultation. From feasibility to cost analysis, we help bring your custom supplement ideas to life.

Additionally, we offer Ph.D.-level marketing and research support. For a nominal fee, clients can receive tailored marketing portfolios, including research-based write-ups and professional waiting room literature—enhancing client confidence and supplement credibility.

02 Product Connections

Newtropin is a nutraceutical and wellness marketing firm built for high-performing medical practices. We do not manufacture products, operate as a pharmacy, compound medications, dispense prescription drugs, or provide any services requiring state pharmacy licensure.

We help anti-aging and weight-loss physicians and clinics stand out in a competitive market by marketing cutting-edge wellness solutions today's clientele is actively seeking. Our focus spans peptide-based supplements, weight management formulations, men's health and libido support, and women's health and hormone optimization—backed by strategic, compliant marketing designed to strengthen your brand, attract ideal clients, and drive long-term practice growth.

Here is a list of our current Newtropin brand product portfolio:

Amino-1MQ

Created exclusively for clinics and licensed healthcare providers, this blend pairs high-purity 5-Amino-1MQ with Blood Orange Extract to support modern, doctor-guided weight-management programs. Each 30-count bottle delivers a simple, reliable formulation designed for patients seeking structured wellness support.

Amore-Mio Spray

AMORE – MIO is a professional-grade homeopathic mouth spray designed for clinics seeking a gentle, peptide-inspired approach to supporting hormonal balance, libido, and overall vitality. This microdose formula features Testagen, PT-141, and Oxytocin in a stable ethyl alcohol base for efficient sublingual delivery.

AOD9604

AOD 9604 is a bioactive fragment of human growth hormone (hGH) clinically studied for its ability to support healthy fat metabolism. This peptide works by enhancing lipolysis and improving fat oxidation, helping patients reduce body fat accumulation without impacting blood sugar regulation or insulin sensitivity.

Bello Capello

Our Minoxidil & Biotin Capsules provide a convenient oral option for clinics supporting patients with hair thinning and pattern hair loss. Minoxidil helps stimulate follicular activity, while biotin supports stronger, healthier hair from within. This capsule formula offers an easy daily alternative to topical treatments and fits seamlessly into professional hair-restoration protocols.

Boca Trimm

Boca Trimm Formula Capsules combine advanced peptides and compounds to support weight management, trimming, and toning goals when paired with diet and exercise. Featuring 5-Amino-1MQ, NMN, Berberine, AOD9604, and 5 α -hydroxy-laxogenin, this unique blend is designed to enhance fat metabolism, optimize muscle performance, and promote healthy aging at the cellular level.

BPC 157

Support your body's natural repair and recovery with BPC-157, a synthetic peptide known for its regenerative and wellness-boosting properties. Each capsule contains 500 mcg, making daily use simple and consistent.

Brain Health

Experience a refined approach to brain and cellular wellness. This advanced microdose formulation combines 250 mg NMN for

cellular energy, 250 mg NAC for antioxidant support, and 25 mcg CB-4211 for mitochondrial balance, creating a harmonious blend designed to nourish your body at the foundational level. Each ingredient plays a unique role in supporting healthy cellular function, helping you maintain steady energy, mental clarity, and overall vitality throughout your day. Thoughtfully crafted to promote clarity, resilience, and healthy aging—one capsule at a time.

Bravo Biome

A premium blend of targeted peptides, 11-strain probiotics, and botanical extracts formulated to support digestive comfort, inflammation balance, and overall gut-brain wellness.

Candida Cleanse

Formulated with black walnut, oregano extract, and caprylic acid, this supplement supports balance in the gut and oral microbiome by helping regulate *Candida albicans* overgrowth. Candida is a common yeast that can cause issues like thrush, yeast infections, fatigue, headaches, and brain fog when it expands unchecked. While clinical trials are lacking, many report improved well-being with a candida cleanse. This formula is designed to promote digestive balance, support healthy bacteria, and help maintain optimal stomach acidity for overall health.

Chillax Spray

Chillax is a premium 6C homeopathic oral spray formulated to support calm, mental clarity, and emotional balance. This fast-absorbing spray features a synergistic blend of Oxytocin, Epitalon, Vitamin B12 (Methylcobalamin), Selank, and Semax, in a clean ethyl alcohol (20%) base for stability and fast oral absorption.

Chisel Drops

Chisel Drops blend LGD-2226 with 5-Hydroxy-Alpha-Laxogenin in a smooth MCT oil base, offering a dual-pathway approach designed for use within professional wellness and performance clinics. This advanced combination pairs selective androgen-receptor engagement with natural anabolic support, helping clinicians incorporate targeted strategies for lean mass, recovery, and overall vitality within their supervised programs.

CJC + Ipamorelin

The CJC-1295 / Ipamorelin 6C Micro-Dose Spray is a non-injectable, bioregulatory wellness formula designed to support the body's natural growth hormone signaling pathways.

This homeopathic micro-dose combines two complementary peptide signaling molecules—CJC-1295 and Ipamorelin—formulated to work synergistically in support of healthy body composition, restorative sleep, and daily energy as part of a physician-guided wellness program.

Clear Skies

A powerful blend of Methylene Blue, NAC, NAD⁺, and Ginkgo biloba designed to support cognition, learning, memory, and mood while protecting long-term brain health. This advanced supplement works to calm the mind, enhance clarity, and combat oxidative stress by promoting mitochondrial balance and metabolic homeostasis. Clear Skies helps defend against age-related brain and body decline, offering patients a proactive way to support brain vitality and healthy aging.

Colon Cleanse

A professional-grade formula combining cascara sagrada and psyllium husk to support bowel regularity and digestive health. Cascara provides gentle stimulation of bowel movements, while psyllium adds fiber and water content to aid natural elimination. Together, they may help relieve occasional constipation and support toxin clearance.

DHEA 25mg, 50mg, 100mg

Balance your hormones naturally with Newtropin Premier Micronized DHEA Capsules!

- Supports hormone balance and overall well-being

DIM Complex

DIM Complex is a clinical-grade formula designed to support healthy hormone metabolism in both women and men. Featuring 150 mg of DIM, broccoli extract (20:1), calcium D-glucarate, and BioPerine® for enhanced absorption, this formula promotes balanced estrogen activity, efficient detoxification, and improved metabolic wellness.

DSIP Spray

DSIP is a homeopathic 6C ethanol-based spray designed to support healthy sleep patterns and relaxation. Modeled after the naturally occurring peptide involved in regulating sleep cycles, this gentle formula offers a non-sedating option for those seeking more restful, restorative sleep.

Enclomiphene

Enclomiphene is a targeted therapy that naturally stimulates the body's own testosterone production. By increasing LH and FSH, it helps restore healthy hormone levels without suppressing fertility—making it a preferred alternative to traditional TRT.

Epitalon

Epitalon is a synthetic peptide inspired by the naturally occurring pineal peptide epithalamin, widely studied for its role in cellular regulation and longevity research.

This 1 mg capsule formulation is designed for clinical use, offering precise dosing and convenient oral administration. Epitalon has been explored in scientific literature for its potential involvement in telomerase activity, circadian rhythm regulation, and cellular aging pathways, making it a point of interest for practitioners focused on longevity, regenerative medicine, and advanced wellness protocols.

Flaco Drops

Flaco Drops – Advanced Weight Management Formula (Homeopathic 6C) Flaco Drops are a homeopathic 6C liquid formulation designed to support healthy, sustainable weight management. This advanced blend includes Adipotide (FTPP) for targeted fat support, AOD 9604 to promote fat metabolism and lipolysis, and Kisspeptin to help maintain hormonal balance and long-term weight stability.

GHK - CU

GHK-Cu (Glycyl-L-Histidyl-L-Lysine Copper) is a naturally occurring human copper peptide first identified in plasma and released by tissues following injury. It is recognized for its role in supporting the body's natural repair and regenerative processes.

GHRH Spray

This homeopathic spray provides gentle, microdose support for

the body's natural GHRH activity, helping maintain healthy growth hormone signaling. The GHRH-GH-IGF-1 pathway is essential for metabolism, energy, muscle tone, and tissue repair.

GHRP-2 Matrix

BCAA Matrix is a professional-grade amino acid blend formulated to enhance muscle recovery, support lean mass, and promote metabolic health.

Glad Gonads

Glad Gonads is a combinative oral dissolve supplement tablet designed to promote overall male sexual function and health. It is formulated primarily to alleviate male hypogonadal symptoms. Hypogonadism refers to a diagnosis that includes low serum testosterone levels which can result in decrease in lean muscle mass, low sex drive, erectile dysfunction (ED), and depression, with reduced sex drive and ED being the most challenging outcomes for patients.

Glow Biome

Glow Biome™ is a clinician-formulated blend designed to support healthy hair, skin, and nails while promoting a balanced gut. This advanced formula combines collagen peptides, biotin, regenerative peptides, antioxidants, and a high-potency probiotic to enhance natural radiance and overall wellness.

Green Jacket (Ephedera)

A thermogenic and energy-boosting formula designed to support weight management by reducing body fat, curbing cravings, and increasing energy. Powered by ephedra for metabolic stimulation, this blend includes bitter orange, green tea extract, and Yohimbe for enhanced focus, performance, and vitality. Natural caffeine sources from kola nut, guarana, and yerba mate provide sustained energy.

Gym Fuego

Gym Fuego™ contains SLU-PP-332, a novel estrogen receptor-related orphan receptor (ERR) agonist designed to mimic key molecular effects of physical exercise. The compound activates metabolic pathways associated with energy regulation, fat mass reduction, and lean muscle support.

Gym Gazelle

Gym Gazelle™ is a streamlined supplement created for individuals who maintain an active lifestyle and want a clean, organized approach to their daily wellness routine. This formulation is inspired by scientific interest in cellular and mitochondrial function. Gym Gazelle™ is designed for those who train regularly and want ingredients that align with an active schedule—whether lifting, running, or pursuing general fitness goals.

Happy SAC

Happy Sac™ is a sublingual support spray formulated with a 6C homeopathic ethanol base, designed to gently support male reproductive and endocrine signaling pathways. The formula contains homeopathically prepared micro-doses of Testagen™, Kisspeptin, hCG, and Gonadorelin, selected for their recognized roles in hypothalamic-pituitary-gonadal (HPG) axis signaling and testicular function.

HCG Drops

This nutraceutical blend is designed to mimic the activity of human chorionic gonadotropin (hCG). Traditionally used in fertility medicine, hCG has been studied for its potential role in weight management by helping the body release stored fat for energy when combined with calorie restriction. Inspired by Dr. A.T.W. Simeons' early observations, this formula supports the body's natural fat-utilization pathways. Use only under the guidance of a licensed healthcare provider.

HGH + IGF1 - LR3 Spray

This 6C homeopathic micro-dose spray is designed to gently support the body's natural GH-IGF-1 pathway, including Somatropin (GH), IGF-1, and IGF-1 LR3. These factors play important roles in healthy metabolism, muscle support, and normal cellular repair. Formulated for wellness and anti-aging support, this product offers a subtle, non-hormonal option that aligns with integrative and regenerative health goals.

I.V. Oggi Spray

Orangecello is a robust proprietary blend of NMN (Nicotinamide Mononucleotide), Choline, Inositol, L-Carnitine, Vitamin C, Folic Acid, B12 methylcobalamin, B6 pyridoxine, CB4211 (mitochondrial derived peptide analog of MOTS-c), and chromium picolinate precisely blended within a natural orange flavor and organic sugar cane. This oral drop supplement blend is an overall health aid with anti-aging and weight-loss properties designed to harmonize metabolic functions in the body or the group of life-sustaining chemical reactions that fuel cellular processes.

Immune & Allergy

Boost your immune system with a powerful blend of 24 carefully selected ingredients, including thymosin peptides, essential vitamins, minerals, and herbal extracts. This advanced formula is designed to support immune balance, antioxidant defense, healthy inflammation response, and overall wellness.

Immune Arrow Spray

Immune Arrow is a non-invasive oral spray formulated as a 6C homeopathic blend designed to support immune balance, recovery, and resilience in clinical wellness settings. This updated formula combines immune-supportive ingredients in a gentle, easy-to-administer spray format.

KPV

KPV is a naturally occurring tripeptide from the melanocortin peptide family, known for its role in supporting healthy inflammatory balance and immune function. It is commonly used to promote gut health, support microbiome balance, and maintain digestive comfort.

Laxogenin

Laxogenin is a plant-derived, non-hormonal compound used to support lean muscle maintenance, recovery, and physical performance. It may aid protein synthesis and is commonly utilized in rehabilitation, wellness, and body composition support protocols. Often used adjunctively with supervised HRT or medical weight-management programs.

LGD 4033

LGD-4033 is a nonsteroidal SARM that works by selectively supporting muscle and bone tissue. It's being studied for its ability to help maintain lean mass and bone strength with fewer hormonal side effects than traditional options. Best used under the guidance of a healthcare provider.

Love Licorice

Love Licorice is a fast-acting Peptide Designed to enhance desire, arousal, and emotional connection in both men and women. Delivered as a rapid-dissolve tablet, it's taken just before intimacy to support physical readiness and deepen partner connection. The formula features a powerful blend of Melanotan II to boost libido, PT-141 to activate desire through the nervous system, Kisspeptin to regulate hormones, IGF-1 for cellular vitality and performance, Oxytocin to promote bonding, and Methylated B12 for mood, energy, and nervous system balance. Together, these ingredients work in harmony to elevate intimacy, enhance responsiveness, and support overall sexual wellness.

Lycan Healing

Lycan Healing is a precision-formulated peptide support blend designed for clinicians and wellness practitioners seeking a clean, micro-dosed combination of research-backed compounds. Each capsule provides consistent, controlled delivery of key peptides and supportive biomolecules.

Magic Luna Spray

MAGIC LUNA is a 6C homeopathic oral spray containing DSIP / Epilation / Selank / Semax 6C Oral Spray designed to support sleep quality, stress balance, and cognitive performance.

Melanotan II Spray

Melanotan II is a synthetic analog of naturally occurring α -MSH (Melanocyte-stimulating hormone), with a longer half-life, similar effects and potency as MTI, and cyclic structure that

allows better blood-brain barrier absorbency. Melanotan II is employed for multiple applications, as a sunless tanning agent to enhance pigmentation or as a weight management adjunct to decrease food intake. There may be variance in patient motivations for use. The synthetic compound works through the central melanocortin system.

Methylene Blue

Methylene Blue is a clinic-grade compound that supports healthier oxygen delivery, mitochondrial function, and cellular energy production. Traditionally used to treat methemoglobinemia, it is now recognized for its broad nootropic and longevity-supportive benefits, including improved redox balance and reduced oxidative stress.

Mezza Luna

A holistic calming and sleep-support formula designed for medical use. Like all Newtropin formulations, Mezza Luna is designed with smaller bioactive molecules to support both protective and therapeutic outcomes, allowing the body to optimize its own healing.

MK - 777

MK-777 is a next-generation analog of MK-677, designed to stimulate the body's natural growth hormone and IGF-1 release. Research suggests such activity may support anti-aging, improved sleep, enhanced recovery, lean muscle preservation, and better body composition. While MK-777 itself is investigational, it is offered for advanced research into healthy aging and regenerative applications.

MK-677

MK-677 (ibutamoren) is an orally active growth hormone secretagogue designed to stimulate the body's natural production of growth hormone. By mimicking the action of GH-releasing peptides, MK-677 offers a convenient capsule-based alternative to traditional growth hormone injections, with strong oral bioavailability.

MOTS-C Spray

MOTS-c is a mitochondrial-derived 16-amino acid peptide being studied for its role in metabolic signaling, energy regulation, and healthy aging. This homeopathic 6C microdose oral spray is designed to gently support the body's natural metabolic balance and promote metabolic resilience, vitality, and overall wellness. Commonly used in clinician-guided longevity protocols to encourage metabolic homeostasis, energy balance, and quality of life.

Muscle Defense

Muscle Defense™ is a physician-formulated muscle support blend designed to help maintain strength, lean mass, and vitality. Each 1 mL serving delivers a precise combination of MK-2866 (5 mg), AC-262536 (3.5 mg), and 5-Hydroxy- α -Laxogenin (25 mg) suspended in high-quality MCT oil for smooth, efficient absorption. Perfect for adults looking to support muscle performance, recovery, and healthy aging under professional guidance.

Nuffolic Forte Spray

Revitalize thinning hair with Nuffolic Forte Hair Spray, powered by 7% Minoxidil — a proven ingredient for both men and women to stimulate regrowth and combat pattern baldness. This easy-to-apply spray boosts circulation, reactivates dormant follicles, and helps extend the natural growth cycle for fuller, thicker hair.

OSSO Repair Spray

OSSO Repair is a homeopathic 6C microdose spray formulated to support the body's natural healing environment, with a focus on soft tissue, joint, and bone-wellness recovery. TB-500 and BPC-157 are widely referenced for their roles in supporting healthy circulation, collagen structure, and tissue integrity—key factors in maintaining optimal recovery conditions for muscles, tendons, ligaments, and bones.

PT-141 Spray

Our PT-141 6C Homeopathic Mouth Spray offers a gentle, micro-dose formulation designed to support overall sexual well-being in both men and women. This easy-to-use sublingual spray provides a non-prescription, low-intensity option that many longevity and wellness clinics integrate into their sexual-health programs.

Retatrutide Spray

Retatrutide homeopathic spray formulary is designed to mimic the functions of pharmaceutical counterparts that acts as a glucose-dependent insulinotropic polypeptide (GIP), glucagon-like peptide 1 (GLP-1), and glucagon receptors triagonist, e.g., regulate the glycemic profile via insulin secretion, potentially supporting healthy weight management. With growing rates of diabetes and other metabolic conditions worldwide, it may be important to consider various prescription based and supplement therapeutic agents designed to regulate the glycemic profile.

Slim Down Tablets

A professional-grade supplement designed for medical clinics, Slim Down combines lipotropic agents and natural energizers to support effective weight management. This unique formulation promotes fat burning, energy, appetite control, and overall metabolic health.

SR9009

SR9009 is a research-based Rev-Erb agonist studied for its potential to support healthy metabolism, energy production, and endurance. By influencing Rev-Erb activity in muscle and liver cells, it may help promote efficient mitochondrial function, improved fat utilization, and balanced cholesterol and triglyceride levels.

Super M.I.C.

Our advanced fat-metabolism supplement is designed to accelerate healthy weight management while supporting overall wellness. Powered by a synergistic blend of Methionine, Inositol, and Choline (MIC), this formula promotes efficient fat burning, enhanced focus, reduced fatigue, and liver detoxification. Enhanced with CB4211, an innovative MOTS-c peptide analog, the supplement also supports mitochondrial function, improves insulin sensitivity, and helps protect against age- and diet-related metabolic imbalances.

TB 500

A gentle, clinically trusted peptide that supports healing, repair, and recovery. TB-4 is naturally found in the body and is known for promoting tissue regeneration, reducing inflammation, improving circulation, and supporting immune balance.

Tesamorelin Spray

Tesamorelin 6C Homeopathic Mouth Spray is a non-invasive, microdose formulation designed to support the body's physiological growth hormone signaling pathways. Tesamorelin is a well-characterized synthetic peptide associated with stimulation of endogenous growth hormone release from the pituitary gland, which plays a role in metabolic regulation, lean mass maintenance, and overall cellular function.

Tesofensine

Tesofensine is a triple reuptake inhibitor that enhances serotonin, noradrenaline, and dopamine activity to help regulate appetite and support an increase in basal metabolic rate. This capsule mimetic formulation is designed as a supplemental adjunct to diet, exercise, and clinician-guided weight-management programs.

Topo Relief

Topo Relief hemp roll-on is a supplemental topical hemp extract plus formulary local and topical analgesic product. Alternatives to opioids for pain relief are a critical area of interest for researchers. Chronic pain is a problem for many patients and remains a clinical challenge as traditional treatment response rates with existing therapies are relatively low. The three main constituents of this topical relief roll-on are BPC, lidocaine, and hemp. As a legal cannabis-based, hemp extract product containing no tetrahydrocannabinol (THC)

content, this product may provide mid-level pain relief effects to locally applied areas of the body.

Wrinkle Relief

Wrinkle Relief GHK-Cu Roll-On is a targeted anti-aging formula designed to smooth wrinkles and rejuvenate skin. The key ingredient, GHK-Cu peptide, supports collagen and elastin renewal for firmer, youthful-looking skin. Enhanced with a homeopathic blend of Aloe Vera, Butcher's Broom, Horse Chestnut, Cucumber, and Acetyl Hexapeptide-3, it helps moisturize, reduce puffiness, and protect against free radicals. Easy roll-on application for quick, gentle wrinkle relief and radiant skin.

03 Nutraceuticals

Newtropin brings over a decade of expertise in nutraceuticals, offering trusted private labeling and referral services for our anti-aging, health, and weight-loss formulations. Physicians nationwide integrate our products into patient care, and we are proud to support that commitment with streamlined solutions that elevate your practice.

Our services go beyond standard labeling. Whether you choose to brand our proven in-house formulas or create custom blends, we provide end-to-end support—from concept and design to fulfillment referrals. For those seeking an edge, we also offer Ph.D.-level marketing and research packages, delivering tailored literature and professional sales tools to boost patient confidence and supplement credibility.

04 Wellness Marketing & Sales

Unlock the full potential of your wellness practice with our dynamic suite of marketing and sales support services. We deliver nutraceuticals, informed consulting, and private label development, empowering providers to stand out in a competitive market. Through strategic collaboration, employment of modern technology methods, and innovative marketing support, we help you captivate patients, grow your brand, and achieve lasting business success.

Collaboration is at the heart of what we do. Newtropin connects wellness providers, fosters partnerships, and creates opportunities for your business evolution and growth. Our networking approach ensures that every client benefits from collective expertise, industry-leading marketing strategies, and a commitment to excellence in wellness provider teamwork.

05 Physician Branding & Marketing

The operation of a successful practice in the 21st century is more than just optimizing patient care and outcomes. Physicians have had to evolve into entrepreneurs and adopt terms from the business world like return on investment and bottom-line profit to stay competitive. Newtropin understands that most physicians must employ additional revenue streams to stay ahead, and we focus on rebranding strategies that amplify your bandwidth to a larger audience.

We live in a digital economy and much of the information dissemination occurs on the internet. Our team of experienced digital marketers can get your practice fully digitized with a robust social media presence on all the major platforms. Furthermore, there is still a demand for more traditional brick and mortar marketing, e.g., banners, brochures, business cards, and logos. Our graphic artists can breathe new life into a tired practice, sometimes with simply freshening up your office's business cards or signage. We have an in-house research & development team that has developed an extensive library of supplements literature customizable for any application.

o6 Search Engine Optimization

Perhaps your pharma business is good, but you want to take the next step to great. It is a no brainer that you have a website and e-commerce platform, but how are your algorithms, data analytics, and SEO? Did we lose you, or are you interested in learning more? SEO is a metric associated with website visibility, e.g., how search engines find & rank your site associated with quantity and quality of traffic.

When someone types in “compounds” or “supplements” in a search bar, does your business land on the first page, 50th page, or undetectable? Newtropin has been involved in search engine optimization for over a decade and we have a global network of SEO and website technicians that can tune up your site to promote higher visibility and increase your rankings with search engines. The more traffic your site receives, the greater the probability of sales and residual business.
